## Report on review of condensed consolidated financial information

To the Board of Directors of  
Emirates Integrated Telecommunications Company PJSC  
Dubai, United Arab Emirates

### Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Emirates Integrated Telecommunications Company PJSC ("the Company") and its subsidiaries (collectively referred to as "the Group") as at 31 March 2019 and the related condensed consolidated statements of comprehensive income, changes in equity and cash flows for the three-month period then ended. Management is responsible for the preparation and presentation of this condensed consolidated financial information in accordance with International Accounting Standards No. 34, '*Interim Financial Reporting*' ('IAS 34'). Our responsibility is to express a conclusion on this condensed consolidated financial information based on our review.

### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of interim financial information performed by the independent auditor of the entity*". A review of condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

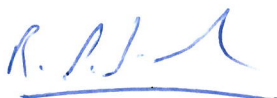

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

### Other matter

The consolidated financial statements of the Group for the year ended 31 December 2018 were audited by another auditor, who expressed an unmodified opinion on those statements on 20 February 2019. Furthermore, the condensed consolidated financial information for the three month period ended 31 March 2018 were reviewed by another auditor, who expressed an unmodified conclusion on 25 April 2018.

# **Emirates Integrated Telecommunications Company PJSC and its subsidiaries**

## **Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019**

### **1 General information**

Emirates Integrated Telecommunications Company PJSC the (“Company”) is a public joint stock company with limited liability. The Company was incorporated according to Ministerial Resolution No. 479 of 2005 issued on 28 December 2005. The Company is registered in the commercial register under No. 77967. The principal address of the Company is P.O Box 502666 Dubai, United Arab Emirates (UAE). These condensed consolidated financial information for the three month period ended 31 March 2019 include the financial information of the Company and its subsidiaries (together the “Group”).

The Company’s principal objective is to provide fixed, mobile, wholesale, broadcasting and associated telecommunication services in the UAE.

The Company has either directly or indirectly the following subsidiaries:

<b>Subsidiaries</b>	<b>Principal activities</b>	<b>Shareholding</b>		<b>Country of incorporation</b>
		<b>2019</b>	<b>2018</b>	
EITC Investment Holdings Limited	Holding investments in new business i.e content, media, data and value added services for telecommunications	100%	100%	UAE
Telco Operations FZ-LLC	Telecommunication and network	100%	100%	UAE
Smart Dubai Platform Project Company LLC	Software development, IT infrastructure, public networking and computer systems housing services	100%	100%	UAE
EITC Singapore PTE. LTD.	Telecommunications resellers/third party telecommunications providers (including value added network services)	100%	100%	Singapore

### **2 Basis of preparation**

#### **i. Statement of compliance**

These condensed consolidated financial information have been prepared in accordance with the requirements of IAS 34 ‘Interim Financial Reporting’. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended 31 December 2018. The condensed consolidated financial information do not include all the information and disclosures required for full annual consolidated financial statements prepared in accordance with International Financial Reporting Standards (IFRS). In addition, results for the three-month period ended 31 March 2019 may not necessarily be indicative of the results that may be expected for the financial year ending 31 December 2019.

# **Emirates Integrated Telecommunications Company PJSC and its subsidiaries**

## **Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019** (continued)

### **2 Basis of preparation** (continued)

#### **ii New standards, amendments and interpretations**

*(a) Amendment to standards and interpretations issued and effective during the financial year beginning 1 January 2019*

- IFRS 16, 'Leases' (effective from 1 January 2019).

The impact of the above amendments on the condensed consolidated financial information of the Group has been disclosed in Notes 3.1.

*(b) New standards and amendments issued but not yet effective*

#### **Effective for annual periods beginning after 1 January 2020**

- Amendments regarding the definition of material;
- Amendments to clarify the definition of a business;
- IFRS 17: Insurance Contracts; and
- Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) relating to the treatment of the sale or contribution of assets from and investor to its associate or joint venture.

The above stated new standards and amendments are not expected to have any impact on condensed consolidated financial information of the Group.

There are no other applicable new standards and amendments to published standards or IFRIC interpretations that have been issued that would be expected to have a material impact on the condensed consolidated financial information of the Group.

#### **iii Basis of consolidation**

A subsidiary is an entity controlled by the Company. The financial statements of a subsidiary are included in the condensed consolidated financial information from the date that control commences until the date that control ceases.

#### **iv Basis of measurement**

These condensed consolidated financial information have been prepared under the historical cost convention except for a financial asset at fair value through other comprehensive income (FVOCI) and derivative financial instruments that have been measured at fair value.

#### **v Functional and presentation currency**

These condensed consolidated financial information are presented in United Arab Emirates Dirham ("AED") rounded to the nearest thousand except when otherwise stated. This is the Group's functional and presentation currency.

# **Emirates Integrated Telecommunications Company PJSC and its subsidiaries**

## **Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019 (continued)**

### **2 Basis of preparation (continued)**

#### **vi Earnings per share**

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit attributable to the ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is calculated by adjusting the weighted average number of equity shares outstanding to assume conversion of all dilutive potential ordinary shares. The Group does not have any dilutive potential ordinary shares.

#### **vii Use of estimates and judgements**

The preparation of these condensed consolidated financial information, in conformity with IFRS, requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's annual consolidated financial statements for the year ended 31 December 2018, except as mentioned in Note 3.1.

### **3 Significant accounting policies**

The same accounting policies and methods of computation have been followed in these condensed consolidated financial information as compared with the Group's recent annual audited consolidated financial statements as at and for the year ended 31 December 2018, except for the adoption of new and amended standard as set out below:

New standard became applicable for the current reporting period and the Group had to change its accounting policies and make retrospective adjustments as a result of adopting the following standard:

- IFRS 16 Leases

The impact of the adoption of this standard and the new accounting policies are disclosed in Note 3.1.

# Emirates Integrated Telecommunications Company PJSC and its subsidiaries

## Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019 (continued)

### 3 Significant accounting policies (continued)

#### 3.1 IFRS 16 Leases

IFRS 16 - Leases was issued in January 2016 and it replaces IAS 17 'Leases', IFRIC 4 'Determining whether an arrangement contains a lease', SIC-15 'Operating leases-incentives' and SIC-27 'Evaluating the substance of transactions involving the legal form of a Lease'.

IFRS 16 is effective for annual periods commencing on or after 1 January 2019. It stipulates that all leases and the associated contractual rights and obligations should generally be recognize in the Group's financial position, unless the term is 12 months or less or the lease for low value asset. Thus, the classification required under IAS 17 "Leases" into operating or finance leases is eliminated for Lessees. For each lease, the lessee recognizes a liability for future lease obligations. Correspondingly, a right to use the leased asset is capitalized, which is generally equivalent to the present value of the future lease payments plus directly attributable costs and which is amortized over the useful life.

#### Policy applicable from 1 January 2019

The Group has adopted IFRS 16 using the modified retrospective transition approach as of 1 January 2019 and therefore the comparative information has not been restated and continues to be reported under IAS 17 and IFRIC 4. All right-of-use assets were measured at the amount of the lease liability on adoption (adjusted for prepaid or accrued lease expenses). Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. IFRS 16 transition disclosures also requires the Group to present the reconciliation. The off-balance sheet lease obligations as of 31 December, 2018 are reconciled as follows to the recognized the lease liabilities as of 1 January 2019.

	<b>AED 000</b>
<b>Operating lease commitments disclosed as of 31 December 2018</b>	<b>1,571,439</b>
Less: contract assessed as service agreements	(343,028)
Add: Adjustments as a result of changes in contracts, lease terms and payments (net)	908,663
<b>Lease liability recognised as at 1 January 2019</b>	<b>2,137,074</b>
Of which are:	
Current lease liabilities	287,475
Non-current lease liabilities	1,849,599
	<b>2,137,074</b>

# **Emirates Integrated Telecommunications Company PJSC and its subsidiaries**

## **Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019 (continued)**

### **3 Significant accounting policies (continued)**

#### **3.1 IFRS 16 Leases (continued)**

Right-of use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the balance sheet as at December 31 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The change in accounting policy affected the following items in the statement of financial position on 1 January 2019:

- Right-of-use assets – increase by AED 2,109 million
- Lease liabilities – increase by AED 2,137 million

Based on the approach adopted by the Group on adoption of IFRS 16 Leases, it did not result in any impact on retained earnings on 1 January 2019.

Below given policy is applied to all active contracts as of 1 January 2019, contracts entered into, or changed, after 1 January 2019.

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for the Group for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
  - the Group has the right to operate the asset; or
  - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, where the contract is not separable into lease and non-lease component then the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

# **Emirates Integrated Telecommunications Company PJSC and its subsidiaries**

## **Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019** (continued)

### **3 Significant accounting policies** (continued)

#### **3.1 IFRS 16 Leases** (continued)

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### Practical expedient

In applying IFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics; and
- reliance on previous assessments on whether leases are onerous.

Details for right-of-use assets and the related lease liabilities is shown under Notes 5 and 13.

**Emirates Integrated Telecommunications Company PJSC and its subsidiaries**

**Notes to the condensed consolidated financial information  
for the three-month period ended 31 March 2019** (continued)

**3 Significant accounting policies** (continued)

**3.1 IFRS 16 Leases** (continued)

The related changes in judgments and estimation uncertainties pertaining to IFRS 16 are given below:

Determining the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

Discounting of lease payments

The lease payments are discounted using the Group's incremental borrowing rate ("IBR"). For calculation of IBR, the Group has taken the 12 months LIBOR as on the transition date and the rate is adjusted for Group's specific risk, term risk and underlying asset risk.

## Notes to the condensed consolidated financial information for the three-month period ended 31 March 2019 (continued)

### 6 Intangible assets and goodwill (continued)

The Group performed its annual impairment test in December and when circumstances indicated that the carrying value may be impaired. The Group's impairment test for goodwill is based on value-in-use calculations. The key assumptions used to determine the recoverable amount for the different cash generating units were disclosed in the annual consolidated financial statements for the year ended 31 December 2018. During the period, the Group's management has not noted any indicators of impairment and accordingly, no separate impairment assessment was carried out as of 31 March 2019.

#### Intangible assets

The net book value of the other intangible assets is as follows:

The Software in use represents all applications such as ERP and Billing systems which are currently in use while the Capital work in progress relates to the on-going development of these systems. Software is being amortised on a straight-line basis over a period of 5 years.

Telecommunication license fees represent charge by the Telecommunications Regulatory Authority to the Group to grant the license to operate as a telecommunications service provider in the UAE. The fees are being amortised on a straight-line basis over a period of 20 years which is the term of the license, from the date of granting the license.

Indefeasible right of use represent the fees paid to a telecom operator to obtain rights to use Indoor Building Solutions relating to certain sites in the UAE. The fees are amortised on a straight line basis over 10 years. Also included in the balance is an amount charged by an operator of a fibre-optic cable system for the right to use its submarine fibre-optic circuits and cable system. The fees are amortised on a straight-line basis over a period of 15 years from the date of activation of the cable system.

Due from a related party	14,246	27,665
Due to related parties	9,364	1,330
Net changes in working capital	<u>485,972</u>	<u>334,968</u>

### 24 Contingent liabilities and commitments

The Group has outstanding capital commitments and bank guarantees amounting to AED 946,839 thousand and AED 4,643 thousand, respectively (31 December 2018: AED 1,139,214 thousand and AED 36,677 thousand, respectively). Bank guarantees are secured against margin of AED 33,206 thousand (31 December 2018: AED 5,393 thousand) (Note 12). The Group is subject to litigation in the normal course of its business and of the view that the outcome of these court cases will not have a material impact on the Group's income or financial position.

### 25 Segment analysis

The Group has operations mainly in the UAE. The Group is organised into four major business segments as follows:

- Mobile segment offers mobility services to the enterprise and consumer markets. Services include mobile voice and data, mobile content and mobile broadband WIFI. Mobile handset sales, including instalment sales, are also included in this segment.
- Fixed segment provides wire line services to the enterprise and consumer markets. Services include broadband, IPTV, IP/VPN business internet and telephony.
- Wholesale segment provides voice and sms to national and international carriers and operators. Services include termination of inbound international voice traffic and international hubbing.
- Others. Others include broadcasting services, international roaming, site sharing etc

Segment contribution, referred to by the Group as Gross Margin, represents revenue less direct costs of sales. It is calculated before charging network operating costs, sales and general and administration expenses. This is the measure reported to the Group's Board of Directors for the purpose of resource allocation and assessment of segment performance.

Profit for the period					<u>512,601</u>

The Group's assets and liabilities have not been identified to any of the reportable segments as the majority of the operating fixed assets are fully integrated between segments. The Group believes that it is not practical to provide segment disclosure relating to total assets and liabilities since a meaningful segregation of available data is not feasible.

### 26 Comparatives

#### Change in the presentation of condensed consolidated statement of comprehensive income

During 2019, the Group has changed the categorisation and presentation of its expenses in the 'consolidated statement of comprehensive income' from 'by nature' to 'by function', both of which are allowed as per International Financial Reporting Standards. Accordingly, the presentation of comparative information for the three month period ended 31 March 2018 has been amended to be consistent with the current period presentation. There is no impact of the change on revenues, finance costs, provision for impairment of trade receivables and contract assets, total amount of expenses or on profit for the period.
