

Your Smart ICT Partner - Helping you scale up your digital transformation

# Digital Infrastructure – Data Centre Solutions

Business

## A growing ecosystem of hyperconnected, secure and redundant digital hubs

du is evolving and expanding its data centre footprint across the UAE to give your organisation a secure and scalable foundation for your applications and services. Our hyperconnected and high-performance data centres are growing to include a total of five facilities from Abu Dhabi to Dubai. This provides you with new reliability and redundancy, as well as the flexibility to scale your presence in world-leading facilities.

du removes risk from digital transformation with proven infrastructure that is trusted by the most demanding organisations, including government, financial services, gaming, and cloud service providers. When you choose du's data centre solutions, you benefit from a growing ecosystem of world-class infrastructure delivered with local knowledge and expertise.

### Facilities

1. Dubai Silicon Oasis Dubai DXB2 Q1 2021
2. Meydan Dubai DXB1 Available
3. IMPZ | Equinix Available
4. Kizad Abu Dhabi AUH2 Q1 2021
5. Masdar city Abu Dhabi AUH1 Available

### Features

- **Full geographical redundancy** (+80Km) delivering 99.999% uptime.
- **Exceeding Uptime Institute Tier III certification** requirements with complete security integration that is managed 24x7x365.
- **Carrier-neutral facilities** with dual access to local networks matched with international terrestrial and subsea cable connectivity.
- **Dedicated network fabrics** between all data centres with <5ms latency between locations.
- **Dedicated and direct connectivity** to world-leading Cloud Service Providers and hyperscalers.
- **ISO 27001** certification (Infra & IT Security), **PCI DSS** certification (Data Security), **OHSAS 18001** (Health & Safety), **ISO 22301** (BS continuity management), **ISO 9001**(Quality management) and **ISO 14001** (Environmental management).

EQUINIX

## Access the Equinix Ecosystem

**Platform Equinix™** helps you reach everywhere with 200 data centres, 55 metros, 25 countries 99.999% uptime record.

**Home of the Interconnected Cloud™** with access to key hyperscalers and 30 + Cloud & IT ecosystems.

**International Business Exchange™** offers global and regional enterprises and financial services to colocate critical data infrastructure.

**Transit Zone** (datamena) for regional and international connectivity with 50+ networks within the ecosystem.

## Benefits

### Reliability and resiliency

Geographic redundancy across five sites across Dubai and Abu Dhabi support robust business continuity and disaster recovery capabilities.

### Rapid scalability

Rapidly scale your data centre infrastructure across facilities with efficient and modular build out.

### Highly secure

All facilities exceed standards for physical security with CCTV monitoring, biometric hand geometry readers and individually locked racks as well as a 24/7/365 onsite security team.

### Low risk environments

All facilities are located in ultra-low risk areas with no seismic activity, floodplains, or dangerous industrial activity.

### Seamless connectivity

Connect and scale applications and services in data centre facilities and in the cloud via high availability and hyperconnected hubs.

## Why choose du?

### A continually evolving ecosystem

Our infrastructure is expanding to deliver a flexible and scalable foundation for growth.

### Data integrity and security is our top priority

We've purpose-built our data centre footprint to ensure maximum uptime and security.

### We're committed to end-to-end experience

We combine best-in-class security, redundancy and cost-efficiency to accelerate your digital journey.

### World-class data centre solution delivered with local knowledge

We deliver industry-leading infrastructure with local expertise to support your long-term success.
