Submit my request

1. Only 1 bundle can be activated per number.
2. If the number has an active bundle, then the user can't add the number to the activation list.
3. If the number is suspended, then the user can't add the number to the activation list.
4. The bundle will be charged prorated.
5. The user can Enter up to 20 numbers per request, and he can submit many requests.

You will get the following confirmation screen once the request has been submitted.
