2 Legal References

- 2.1 Article 13(1) of the Telecommunications Law grants the TDRA the Authority to exercise its functions and powers to “ensure that the Telecommunication Services provided throughout the State, are sufficient to satisfy the public demands of those who wish to make use of such services”.
- 2.2 Article 14(3) of the Telecommunications Law grants the TDRA the authority to issue policies with respect to “the terms and level of services provided by the Licensees to users, including the standards and quality of service provided, the terms and conditions of supply of such services, the handling and resolution of user complaints and disputes, the provision of information to users, the use of user information and the rendering of bills to users”.
- ## 3 Purpose and Scope
- 3.1 This Regulatory Policy sets out the particular measures to be taken by the Licensees and other Persons in the interests of protecting UAE Consumers from Spam Calls.
- 3.2 This Regulatory Policy seeks to minimise the transmission of Spam Calls in order to:
- 3.2.1 promote secure and trusted information and communication technologies in the UAE;
- 3.2.2 protect Consumers from Unsolicited Telemarketing Calls and the cost and time spent dealing with such calls; and
- 3.2.3 protect Consumers from Malicious Calls and thus create a safer communications environment.
- 3.3 For the purposes of this Policy, the term “Spam Call” refers to certain types of voice calls and shall include all calls where:
- 3.3.1 the call is a Malicious Call, or the call is an Unsolicited Telemarketing Call; and
- 3.3.2 the call has a UAE Link; and
- 3.3.3 the call is delivered, or intended to be delivered, in audible form- regardless of whether:
- (i). the content of the audible communication is in real time;
- (ii). the transmission is duplex or simplex;
- (iii). the audible message contains a natural or a synthesised voice or other forms of sound including but not limited to music;
- (iv). regardless of the technology used in the origination, conveyance and receiving of the call; and
- (v). regardless of whether the call is answered. Thus, missed calls shall not be construed as being excluded from this Policy.
- 3.4 For the purposes of this Policy, it is a rebuttable presumption that any Malicious Call is a Spam Call. Noting the harm that is or can be caused to Consumers by Malicious Calls, including unanswered calls, this Policy includes certain provisions which are specifically designed to protect Consumers from the effect of Malicious Calls.
- 3.5 Whether a Telemarketing Call is classified as a Spam Call, is ultimately determined by the person who receives the call and not the person who originates the call. Noting the foregoing, it is accepted that in one scenario, a particular Telemarketing Call may be welcomed by one recipient and yet in another scenario exactly the same call may be unwanted by another recipient. The call in the second scenario is classified as a Spam Call, whereas the call in the first scenario is not. Accordingly, Licensees and other persons who utilise telemarketing activities shall err on the side of caution and have the utmost respect for the preferences of Subscribers regarding their desire or otherwise to receive Telemarketing Calls.
- 3.6 In the context of this Policy, Licensees shall not categorise Subscribers by service type and Licensees shall not differentiate between ‘mobile Subscribers’, ‘fixed Subscribers’, ‘legacy Subscribers’, etc.
